

PHOTO HUNT

Level 1-4
No time limit

Gentle movement search puzzle

Wellness Domains

Physical / Environmental

Topic:

Movement and bodily coordination

Goals:

Participant practices hand-eye coordination and gentle movement

Materials (Included/Subs):

- Photo hunt puzzle pieces or cards (puzzle included)
- Scissors
- Tape / thumb tacks
- 5–10 printed photos (personal, nature, animals, or fun images)
- Small container, envelope, or tray to collect photos
- Optional: small prize, reward

Background:

In this activity, the participant get some exercise and move searches for photos placed around their space. The goal is not speed, but noticing, reaching, pointing, or describing where the pictures are found.

The activity can be active or very gentle, supervised or unsupervised, depending on ability. Found photos are collected and brought together at the end for satisfaction or a simple “prize.”

Structure / Activity:

In this activity, the participant is invited to explore their environment to uncover a surprise or put together a puzzle! It encourages gentle body movements in a safe and fun way.

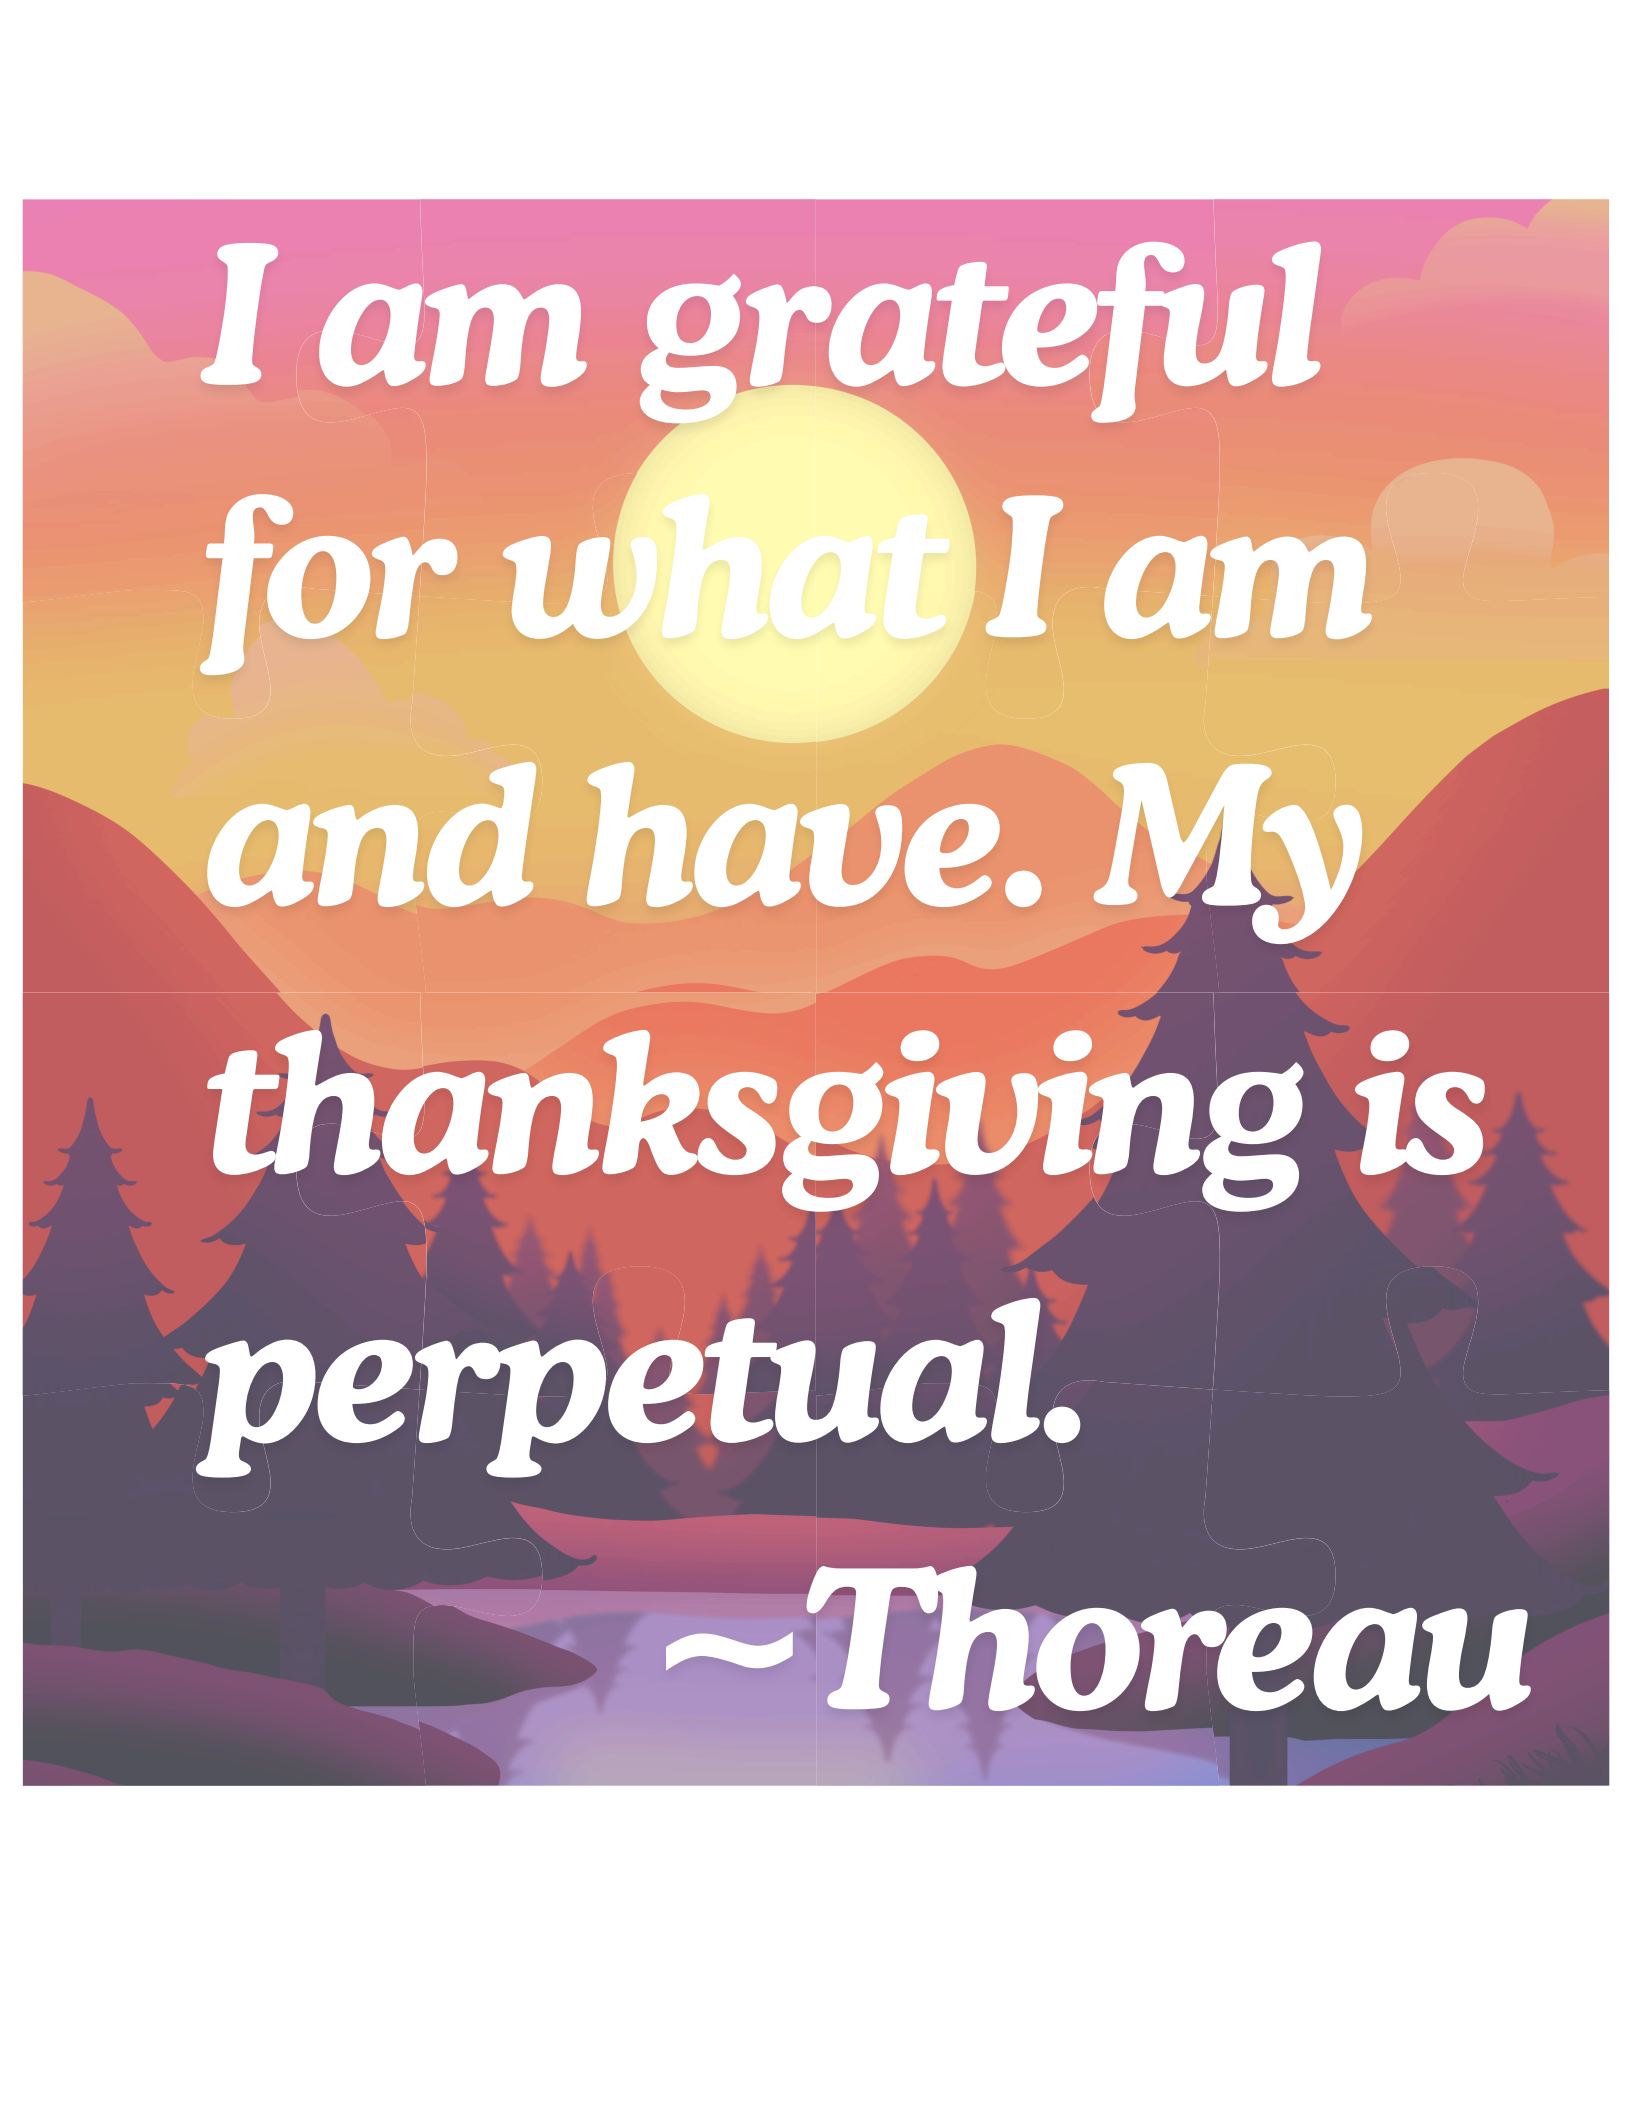

Steps:

- While the person is out of the room, place photos around the room at safe, reachable and appropriate spots depending on participant's mobility.
- Introduce the role and activity. Explain “There are pictures/puzzle pieces hidden around the room, let's find them!”
- Begin the Search. Invite the participant to:
 - Walk to the photo
 - Reach or point
 - Or describe where they see it
- Collect the Photos at a relaxed pace. Each time a photo is found, place it in the container. Pause as needed. The activity is not timed.
- Bring It Together! Lay out all collected photos together or put the puzzle together.
- Closing Moment. Enjoy the completed set and offer positive feedback or a small reward if planned.

Adaptations & Safety Precautions:

For vulnerable participants

- Do not place photos where bending, reaching, or walking could cause a fall
- Avoid clutter or blocked walkways
- Supervise if mobility or balance is uncertain
